Subject: Mark Jen swap and Pebble

David,

Molly sent me a note that she's interested in picking up the Pebble project as the lead NEPA reviewer. I told her that I appreciated hearing from her regarding her interest and that we were starting conversations. I said that I would get back to her as soon as I could, as there are a number of things to consider.

Non-responsive: Material Unrelated to Bristol Bay / Pebble Mine

I know that this process will take some time to implement as it all gets worked out. If we are to look into assigning the Pebble EIS to Molly, **Non-responsive: Material Unrelated to Bristol Bay / Pebble Mine**
Non-responsive: Material Unrelated to Bristol Bay / Pebble Mine As Pebble is a Regional Priority, I'd like to talk with you both to sort out all of the considerations for assigning a NEPA lead reviewer. I'd like to be able to connect with both Molly and Jennifer about our plans for proceeding by next Friday 12/22 if possible. And as we've discussed, I'll need to circle back with others on the team about how this is all going to work, as it could impact the whole team once workloads start shifting around.

Thanks! Jill
